NEW MILTON HEMP PLANT IS LAUNCHED

ACTIVITIES AT FACTORY MAKE TOWN CENTER OF GREAT INTEREST.

INSTITUTION HAS FINE EQUIPMENT

Wisconsin is the Second Largest Hemp Producing State in Country.

Activities at the new hemp factory at Milton have begun and the plant is now the center of great interest. The only plant of its kind in southern Wisconsin, it promises to be a great industry in the future. The factory is substantially constructed, modern throughout, and is considered absolutely fire-proof. It is well equipped with machinery to handle the raw product, and is now turning out some high grade fiber.

State Ranks Second

Wisconsin is the second largest hemp producing state in the country, the principal centers of production being Fond du Lac, Green Lake, Dodge and Racine counties. Rock county bids fair to be a hemp growing district in the future, with the opening of the new plant. The climate and soil in Wisconsin are particularly adapted to the crop.

Kentucky, California, North and South Dakota, Michigan, Indiana, Ohio, Minnesota, Kansas, Iowa and Illinois, all produce hemp, but the Illinois state produces the highest grade fiber.

Hemp fiber is considered a national necessity.

Contrary to general opinion, rope and binder twine are only the minor uses of the crop. It is now being manufactured into such necessary articles as auto tires, thread for sewing machine shoes and harness, caulking in ships, fishing of all kinds, carpets, rugs, seines, fish lines, sewing thread, all descriptions of twine, and for such fast as crash towelling, rough sheeting and clothing.

Fertility First Request

Soil that will produce a good crop of hemp will yield a good crop of corn. Fertility is the first requisite of the soil on which it is to be grown. Experiments have shown that hemp will remove less plant food than many other annual crops and that it leaves the soil in workable condition.

SUFFRAGE HOST

MRS. DAVID O'NEIL

Mrs. David O'Neil of St. Louis has just finished her arduous duties of acting as hostess to the thousands of suffragists who attended the National Woman Suffrage convention held recently in that city. Mrs. O'Neil was chairman of the hospitality committee for the national board during the convention. She has always been a hard worker for the cause, having acted as president of the Equal Suffrage league and as first vice president of the state association. At present she is chairman of the legislative committee and is spending most of her time in Jefferson City.

It is a successful crop for smothering quick grass and Canadian thistles. The seed is drilled in the spring and requires no further attention until it is ready to harvest in September.

The cost of production is said to be from eight to twelve dollars an acre more than small grain crops. Growers consider the returns from the crop justify this extra expense. The net profit per acre is said to be from \$50 to \$100.

The way the raw material is turned into the finished products at the Milton plant is attracting much attention. The hemp in its natural state comes out at the north end ready for baling and shipment. The waste is driven by blower direct to the engine room and used for fuel.

SPARTACAN UPRISING AT FRANKFORT NOW SAID TO BE SERIOUS

Teutons Obtain Permission From French to Leave to Quell Revolt.

[BY ASSOCIATED PRESS.]

Coblentz, April 3.—German troops opposite the Coblentz bridgehead began moving early Thursday toward Frankfort where a spartacan revolt has been causing disorder.

Before entering Frankfort, which is the neutral zone beyond the French bridgehead at Mayence, the German military authorities had to obtain permission from the French tenth army.

According to information reaching American headquarters here the trouble in Frankfort became serious Thursday. The workmen formed groups and eventually a mob of more than 10,000 began parading through the streets.

The mob stormed a large warehouse and the members helped themselves to the food stored there. Hundreds filled baskets and sacks with food of various kinds.

Street Fighting Starts

Street fighting followed an attempt by the local authorities to gain control of the situation. The German troops opposite the American bridgehead were then called on for help.

HER SON LOST

MRS. MARY CASEY THORNE

New York, April 3.—(Special)—Mrs. Mary Casey Thorne has offered \$1,000 reward for the recovery of her four-year-old son or any information as to his whereabouts. Recently Mrs. Thorne filed a writ of habeas corpus in the supreme court requiring the grandmother to produce the boy in court. She stated that she saw the boy on the balcony of the Fifth avenue apartment where he is supposed to be kept.

On the next morning the writ was returned. The grandmother and the boy were not produced before the judge and so the whereabouts of the little four-year-old remains as much a mystery as ever.

Little Joe's parents separated and he lived with his mother until September 24, last, when his nurse telephoned that she and the boy were gone for an automobile ride with his father. The mother has not seen him since.

RESPITE IS ASKED BY SOCIALISTS

REQUEST SIGNED BY E. P. WALSH, C. E. RUSSEL AND ALAN BENSON.

PRESIDENT MAY TAKE A HAND

If Petition is Not Granted, Leader Must Begin Long Prison Term.

[BY ASSOCIATED PRESS.]

Washington, April 3.—Application for a respite preliminary to a petition for a pardon for Eugene V. Debs, the socialist leader, sentenced to ten years' imprisonment for violating the White House and will be referred to Attorney General Palmer.

The request is signed by Frank P. Walsh, Charles Edward Russell and Alan Benson.

It has not been brought to the attention of President Wilson, it was learned today, but the attorney general has been advised of its receipt.

Would Stay Jail Term.

Should a respite be granted, it would stay the execution of Debs' ten year prison sentence until the expiration of a stipulated time during which consideration would be given to a pardon.

If it were not granted Debs would be remanded to prison immediately upon certification by the supreme court of its findings upholding his conviction which probably would be about May 1.

The court, after upholding the conviction of Debs, refused an application for a rehearing.

The application for clemency to President Wilson is his last appeal.

St. Mihiel Pink Tea to This Bird

If Corporal Bob Thompson of Darlington was as wild a man as Mont Sae last September when the Americans captured it, in wiping out of the St. Mihiel salient as he was yesterday when the police arrested him for being disorderly, Bob must be given a lot of credit for the showing of Pershing's First Division.

Bob was a regular wildcat and it took the police reserves to get him to the station and even then his left was an entirely different lad. He was remorseful for his actions in the uniform of his country.

Tells of Accomplishments.

To Judge Maxfield he told of his twenty months service from one end of the western front to the other, how and where he was wounded, and related other exciting experiences.

"If hell is anything like a bar, then I don't want to go there," he told the court, and took the pledge for a year.

Other Fighters There.

Thompson was not the only other ex-soldier in court. There were two others. One was Charles Croft of Monroe, the C. M. & St. P. Ry's Mineral Point division being very well represented for the day.

Cases of drunk and disorderly accused all three were dismissed by Judge Maxfield, "because of war service," after he heard how the trio helped make history.

But Jim Hagelorn of Milton did not fare so well. Jim was oldest of the four in court this morning; he didn't buy any liberty. Bonds nor any War Stamps against his under a hard twenty-five dollars and costs or thirty days.

Korea Asks Independence.

Paris, April 3.—An appeal for the independence of Korea was submitted to the peace conference this week by a delegation headed by Kim Seon Kimo, representing the new Korean Young Men's society. The appeal is declared to represent the sentiment of the Korean people, as manifested by the present widespread passive resistance movement.

The document is accompanied by a memorandum reciting the alleged injustice and unpopularity of Japanese rule and the harshness of the measures with which Japan is declared to be oppressing the Korean people. It is expected that the league of nations commission will meet Saturday to accept a definite text of the covenant. President Wilson will act as chairman of the meeting.

By Alfred G. Anderson: International News Service Staff Correspondent.

Berlin, (Via London) April 3.—Martial law was proclaimed throughout the entire Ruhr district today as a result of strike disorders.

The document promises socialization of industry and mines at a seven and one-half hour work day. The men are demanding a six hour work day.

REPEATED BOLSHEVIK ATTACKS ALONG FRONT REPULSED BY ALLIES

[BY ASSOCIATED PRESS.]

Archangel, April 3.—Repeated bolshevik attacks along the front line and both the right and left flank positions controlling Odozerskaya were repulsed today by allied forces.

The Americans, French, British and Russians who, either separately or together are holding positions throughout this territory, which is a little over 100 miles south of Archangel, have everywhere held their lines intact.

The bolsheviks, in spite of their heavy losses yesterday, attacked the railroad front south of Odozerskaya at ten o'clock this morning, but they failed to force their way through the Ozerd, where Americans, Russians and British are fighting, were under attack all day yesterday at a point about 15 miles west of the front. The bolsheviks were made there again this morning.

All broke down under allied fire.

According to bolshevik prisoners the enemy is somewhat demoralized because of heavy losses during the past two days. In the Seltzko sector, 40 miles east of Odozerskaya, the allied advance posts were attacked by a strong enemy patrol this morning, but the bolsheviks were driven back by machine gun fire, losing two killed and a number wounded. Seltzko protects the allied flank along the Odozerskaya front and the right flank of the allied rear positions.

NOTHING IS CERTAIN IN GERMANY NOW; VON BERNSTORFF SAYS

[BY ASSOCIATED PRESS.]

Paris, April 3.—Competent German and foreign observers are chary of making definite prediction of what will come out of the welter of political and economic disorders and developments in revolutionary Germany now is certain, except the uncertainty of the morrow.

The former Berlin correspondent of Paris, after 6 weeks devoted to a study of conditions in Germany, left that country however, with these distinct impressions:

The tenure of the present coalition government was by no means secure, although it is for the moment in control of the situation.

There is no alternative except that a strong drift toward a soviet republic is possible, if the present government falls.

A renewal of Spartacan activities against the present regime by further strikes and uprisings is almost certain.

NEUTRALIZE RHINE, PLAN OF COUNCIL

[BY ASSOCIATED PRESS.]

Paris, April 3.—The council of four has virtually decided, according to information from French sources, that the left bank of the Rhine will be neutralized until Germany has paid the indemnities fixed by the peace conference.

It is understood that French and Belgian troops will hold this territory. The United States claiming it to be impossible to leave American troops in Europe after the signature of the peace treaty, and England, having suffered from the troops to maintain garrisons along the Rhine.

It is surmised that the visit of King Albert of Belgium to Paris was not unconnected with the question that Belgian troops will be asked to undertake in this territory.

EMBARGO ON ALL GRAINS CANCELLED

Chicago, April 3.—The railroad administration today cancelled the embargo on all grains, for all primary markets, and discontinued the permit system. All continuing embargo of individual roads were also cancelled. The markets affected include Buffalo, Milwaukee, St. Paul and Minneapolis, Chicago, St. Louis, Peoria, Kansas City, St. Joseph, Omaha, Council Bluffs, Duluth and Superior.

CHAMBERLAIN SCORED BY SECRETARY BAKER

[BY ASSOCIATED PRESS.]

"I am perfectly willing," the secretary added, "to let the people of the country decide between what the war department has done in three years and what Senator Chamberlain has said in three years."

Communist Budapest Now Reported Orderly

[BY ASSOCIATED PRESS.]

Budapest, (Via Vienna) April 3.—Communist Budapest is orderly and the government is putting forth every effort to stabilize conditions.

There are pessimists, however, who declare the government will endure less than a month, it being pointed out that its success will be partly dependent upon the success of the Russian bolshevik army in establishing a coalition government in Budapest, by way of Bessarabia and Bukovina.

Bela Kun, the foreign minister, receives hundreds of telegrams of official nature every day, among them being messages from Nikolai Lenin. He receives newspaper men freely, but has ordered that their dispatches be censored for the purpose of cutting down the material to be sent over to the allied wires as well as to eliminate objectionable features.

Prof. H. D. Hemenway, Washington D. Prof. Hemenway pointed out that food-stuffs are very liable to continue at present high prices and that the person who has his own garden would benefit materially from his crops. Evansville, April 3.—Not wishing to be out-classed by their fair hostess who gave the very correct—everybody—dinner a few weeks ago, and desiring to demonstrate their ability to serve just as formal a repast, the following young men issued invitations to a six-course dinner—everybody—at the home of Marlow Smith, Tuesday evening: Marlow Smith, Preston McMurray, Bryce Baird, Will Chapin, Walter Graham and Eldon Baird. BIRD CORNER

The following two stories were among those for which prizes were awarded:
(By Neva Jean Gestland, 228 North Pearl street.)

ROBIN RED-BREAST.

I was walking down the street yesterday and very suddenly heard the chirp of a robin. I looked and looked for him but could not see any bird except a little sparrow. I was sure it was a robin's song, so I began to look more closely, and finally discovered him swinging on the branch of a nearby tree.

His little eyes were so bright and his feathers so gray that he surely looked as if he had just returned from spending the winter in the south. He was acting as if he was happy to be back as we are to see him after his long absence. And as I stood and

listened to his song he seemed to be saying cheer up, wake up; spring is here.

(By Evan James Scott, age 11, Avon.)

THE FIRST MEADOW LARK.

I saw a meadow lark on March third. I saw it about 4:30 in the afternoon. It was sitting on our fence post near the brooder house. It was singing, "Teeter Teeter, Teeter Teeter." I picked it out on the piano and it sounds like this: d-b-g-g-d-b-g.

Its color is a yellow breast, with brown spots and the back, tail, head and wings, brown. It has a black band around its throat. It sings on a pasture fence post or by the roadside. Tonight, March eight, I saw another meadow lark. I also heard the peewees twittering in our pasture early in the evening several times, during the warm weather in the last week of January.

Thursday afternoon the W. C. T. U. met at the home of Mrs. J. A. Melrose, 60 South Jackson street. It was reported that the national W. C. T. U. has pledged one million dollars to aid in this cause, and some states have already gone over the top in this drive. Georgia being the first.

It was decided at this meeting that the jubilee must be sounded until Wisconsin goes over the top in this drive. "On America" was sung to the tune of "On Wisconsin." Miss Caroline Palmer sang Carrie Jacobs Bond's "Hymn of Democracy."

Ellen Melrose gave two piano numbers, and Whitfield Cook read a composition on temperance.

BRIDGE WORK LET; INVEST CITY CASH

Contract for the building of the bridge to span Rock river at Jackson street, was let to the Wausau Iron Works of Wausau by the Board of Public Works, at a special meeting at the city hall last night.

Other business taken up by the board was the consideration of water and sewer main extensions, and the raising of the salary of the superintendent of the water department, and the decision to invest money from the amortization fund of the water department in the next Liberty loan.

Contract for \$78,400.
The Wausau concern, lowest of seven bidders on the bridge, was given the contract with figures of \$78,400 for the structure proper and \$3,000 additional for the street railway work. Two types of railing were submitted, and the type to be used will be decided upon later.

A rough draft of sewer main extensions to be made this year was drawn and will be submitted to the board of public works at a meeting to be held at the city hall.

In addition to the sewer work, water main extensions, figured out a week ago, will be included in the report.

The board went on approval of recommending a two hundred dollar annual increase in the salary of the superintendent of the water department. Final approval rests with the council.

From the amortization or sinking fund investment fund of the water company, hundred and fifty dollars will be invested in Liberty Bonds of the fifth issue the board decided.

City Engineer Kerch was instructed to prepare bids for cement testing firms to analyze material used in the bridge and he was also given authority to employ an inspector to be on hand at the bridge at all times in the interest of the city.

As a matter of fact, it is the consensus of opinion that the fight over the presidency of the club, staged between Mr. Connors and Frank Stevens, former executive, overshadowed all activities as far as the club was concerned. A cessation of hostilities is looked for in a few days as Mr. Connors is said to be preparing an armistice.

CHILDREN HEAP UP OLD CLOTHES BUNDLES

Through the cooperation of Supt. H. H. Faust and his corps of teachers, and the work of the school children of the public schools, the Red Cross drive for old clothes seems likely to reach its quota limit of 7,750 pounds. The drive will end Saturday.

Those who have more to contribute are requested to bring their packages to the City hall Saturday morning.

The school children brought wagon load after wagon load of clothing and bedding Wednesday, until the mountain of clothing overwhelmed the 10 workers, who were at the sorting and packing tables. It seemed to them that the whole of Janesville had emptied its storehouse under the influence of the children's enthusiasm.

Two overseas soldiers, Euseb Selgron and Howard Young, gave their time freely all yesterday afternoon in helping the workers. The others on duty yesterday were Mrs. George Thomas, Miss Gertrude Cobb, and Miss Sarah Richardson, of the committee, and Mrs. Belle Brooks, Mrs. Lyman Morse, Mrs. Arthur Granger, Mrs. J. T. Hooper, and Priscilla Griffee.

J. T. Hooper of the School for the Blind, was also active in organizing the work of the teachers and children for the drive.

Munich Newspapers Now Have Three Alternatives

[BY ASSOCIATED PRESS.]
Munich, April 3.—Munich newspapers were told today that they had three alternatives to continue operations—the adoption of Socialism, communism or state ownership. This announcement was made by the newly appointed minister of interior, Dr. Neuraath, who was named to handle the socialization of the press.

Dr. Neuraath announces he will make emergency use of the powers conferred on him by the diet department. The newspapers shall henceforth belong to the employees, the city or state, and must decide for one of the three. The bourgeois newspapers will not have the right to make political utterances. They will be allowed to publish only educational and diverting articles. The communist parties will have the right to political freedom of the press. Editors have not ventured to answer the announcement of Dr. Neuraath.

News Notes from Movieland

By DAISY DEAN

"Smiling" Billy Parsons is wearing a knowing smile these days. He thinks that he has put something over on the Hollywood film colony. He has all unknown to his associates wooed and won a certain Billie Rhodes, a charming little lady well known to all comedy fans.

It is not known just when the ceremony took place and the marriage might never have been known had not Miss Rhodes, in applying for a passport, signed her affidavit Mrs. Leona Parsons. Miss Rhodes is one of the stars of producing features for the National Film Corporation, and Mr. Parsons, head of the organization, has been responsible in a large measure for the success of the little player since she deserted the slapstick comedy drama for five-reel comedy dramas.

The two Billies who are both smiling now are on their honeymoon in the Hawaiian Islands, where they will, of course, sit in a hammock, look at the pale blue moon and laugh at the whole idiotic remainder of the world for a month. And then the two screen stars will produce a number of pictures in the islands but they will not play together.

The photograph was taken some time ago and it looks as if "Smiling" Billy had studied up on the matrimony game before he decided to try it.

GOSSIP

A final decree of divorce was filed last week in favor of Mrs. Beth Sully Fairbanks from Douglas Fairbanks. It is said that both Mr. and Mrs. Fairbanks contemplate matrimony again in the near future.

Governor Harding refused today to discuss the question of Allen's successor.

London, April 3 (via Montreal).—Sir H. S. AUDITORIUM, MILWAUKEE

The Caruso audience in the Milwaukee Auditorium on Tuesday evening, May 13, when the premier tenor of the Metropolitan Opera Company fills a belated engagement here, will be representative of the entire state. The Caruso tour will be confined to a few more than a dozen of the principal cities. It will be his first flight over the circuit during the present season, and the announcement of an exclusive mail order sale for patrons outside of Milwaukee, until April 8, made by the Moller-Andrews Concert Bureau, under whose guidance the Milwaukee concert will be held, has brought out evidence of great interest in the famous Italian's visit.

No artist has ever been paid so much for his services as Caruso receives on this tour. Each city in which he sings pays him the magnificent sum of \$15,000, and the Moller-Andrews Concert Bureau is meeting this guarantee without appealing to musical philanthropists for a guarantee. Marion Andrews, president of the bureau, is confident that Milwaukee and Wisconsin patrons of music will take advantage of the popular sale of prices, ranging from one dollar to \$3.50, and will fill the entire Auditorium when the great Italian tenor renders his program.

Deputy Grand Master A. J. Queeman, Milwaukee, was present and contributed a good bit to the success of the convention, not only by his entertaining and instructive talk, but to the musical part of the program as well.

Brother J. P. Carle, Janesville, as one member said, gave a talk that was better than many sermons.

SESSIONS LARGELY ATTENDED. The evening sessions were largely

attended. About one hundred members were there from Janesville, Port Atkinson, Whitewater, Milton Junction, and representatives from Milwaukee and Michigan.

A WOMAN'S BUSINESS

LOVE IN PAIN
The great actress, in Walt, had suddenly vanished as Janet began her uttering address of introduction of the brilliant lecturer. Lucy, at his side, vanished with the rest. All that Janet could see, hear and feel to the last breaking nerve in him, was that Janet was moving her lips before a great unseen audience—and that no words but her dry-tipped message of terror spoke to her. Janet's heart was in terror and in pain!

When her stumbling words finally faltered out something, in Walt was concentrated all the stiffening of embarrassment which the whole audience felt. When Janet forgot the speaker's name, Walt did not breathe nor unclench his fingers until he heard her repeat Roy Nicoll's whispered prompting. "That's the name," he said. "Without turning to Lucy, barely seeming to know she was there, he said, "Janet is in trouble. I am going to her."

Walt fairly ran up the aisle and into the anteroom back of the stage. Lucy did not move. Her face remained fixed upon the platform. But in her eyes was the whole audience. When Janet forgot the speaker's name, Walt did not breathe nor unclench his fingers until he heard her repeat Roy Nicoll's whispered prompting. "That's the name," he said. "Without turning to Lucy, barely seeming to know she was there, he said, "Janet is in trouble. I am going to her."

"I don't care," the guard began, pushing Walt back. But the latter turned on him. "You can't get in here!" the man said, barring Walt's way. "My wife's in there—I must see her!" Walt said thrusting the attendant aside.

Tablier Vest Is Heavily Braided

Whether you call it a waistcoat, a gilet or a vestee, it is certainly marvelous what a yard of one of the new spring silks will do for one of the most ordinary model designed, but it can display a tablier vest of some silk or other novelty fabric, it may be classed as a creation.

It was not enough for the dark blue suit above to have a pretty plastron vest of blue English linen, but it had to go farther and have a scroll design neatly worked in sand and navy blue.

The soft tulle hat of small proportions and the short pan parasol are other accessories which are fashionable this season. The hat is navy and sand rough straw with a band of navy gros grain ribbon. The parasol is navy silk with a wooden frame.

Elphinst Knott,
Eh, what?

Three women have just been appointed to city positions in Philadelphia: Margaret Duff, assistant bacteriologist; Marion Briefer, clerk.

Miss Ethel Turk, examiner of the women's division, U. S. employment service, stationed at Chester, Pa., has placed more than 5,000 women in industrial work during the war.

Mr. Eicher died a few months ago and left his wife with four small children, a small farm, a smaller steamer and a river bank coal mine. Mrs. Eicher felt that she could not afford to hire a skilled pilot to operate her steamer which had a tonnage of 100 tons from the mine to Bowling Green on the Green river. But this did not worry her long, because armed with the knowledge gained in working side by side with her husband on the river, she applied for a pilot's license and won it.

Thus she became the first woman licensed pilot in Kentucky. Her little farm is not large enough to support a family of five, but together with the mine properties under her judicious management are on a paying basis, despite the high prices of materials and labor.

Mme. Jules Siegfried, president of the national council of women of France, had addressed a letter to Premier Clemenceau as president of the peace conference asking him to use his influence to have measures taken for the relief of Russian women.

The Union of Russian Women in Switzerland has sent Premier Clemenceau a telegram in the same sense.

Farm work by women in the United States not only will continue as readily as during the war, but may increase according to the officers of the Woman's Land Army of America.

Gov. Burnquist has signed the bill giving women the right to vote for presidential electors in Minnesota.

Eighty-three women acted as automobile drivers in Springfield, Mass., during the period of the war.

The Consumers' League of Delaware is conducting an industrial survey of women workers in that state.

Miss Theresa Haley is in Porto Rico to represent the United States employment bureau. While there she will look after the working conditions on the island, especially among the women workers, who are said to be employed under deplorable conditions.

There is an interesting woman living in Bowling Green, Kentucky. She has taken up an occupation which heretofore has been a clear field for men. She contradicts the statements made by many reactionaries that the home is the place for women and that the family must suffer if the woman works in the business world. Mrs. William Eicher is the woman and she has four small children. Mrs. Eicher claims that her family would suffer more if she did not work at her new profession.

FOR HOUSE CLEANING.
Wall Paper Cleaner (requested).—Mix one cup of four, one-half cup cold water to smooth paper, add two tablespoons of salt, two tablespoons vinegar, one tablespoon lamp oil. Boil on stove until it thickens. Let cool and use same as bought kind.

To Change Color of Waist.—The nice part of this method is that you can wash it out and color same waist a different color if you wish. It's also nice to brighten faded waists. If you have a white silk crepe de chine or georgette waist and you wish it some other color, here is the way: Take crepe paper the color you want. For pink take red paper. Put a small piece in a cup and pour boiling water on it and let it set a while. Then pour a little at a time of this red into clear warm water and you will have the desired shade, remembering, however, that material is brighter when wet. Have waist washed and rinsed, then rinse well in the pink or colored water. Wring and roll in a Turkish towel and in about an hour iron dry.

Knives.—Give boxes a fair trial. Sprinkle plenty on shelves and in cracks. Don't be sparing with it. It is good and it is not dirty looking. Have the shelves well washed with it before putting shelf paper on. This burns the legs off the roaches.

For Insects and Vermin.—Dissolve two pounds alum in three quarts of water. Dip the brush in the alum water and paint brush apply boiling hot to every joint, crack or crevice in closets or shelves where they intrude. Good for crotches, roaches, ants or bedbugs. Keep it boiling hot while using.

Ink Spots.—To remove ink spots: Take up what you can with milk. Buttermilk or sour milk is best. If you can get it. Also take a lemon and rub some of the juice on it, then sprinkle with salt, rub well then work up with clear warm water.

HOME-MADE SOAP.
Soap made by this recipe is equal to any you can buy.
Boil until clear and like honey four and one-half pounds of grease, one can of lye and six quarts of water. Add enough water to make five gallons. Remove from fire and add one-half pint of equal parts of coal oil, gasoline, turpentine and ammonia and one-half pint of borax. Stir well with a wooden paddle.

Let dry, then cut in bars.
To prevent grease odor in home-made soap: So many housewives object to making soap, on account of strong grease odor. When making soap add 10 cents' worth of oil of sassafras just before it hardens. Stir well, then pour out on pan.

This gives the soap a pleasant smell.
All in the Same Boat.
A California court has decided that a woman was not insane just because she couldn't resist shopping bargains. It had to make this decision to be fair to all the other women.

Miss Ethel Turk, examiner of the women's division, U. S. employment service, stationed at Chester, Pa., has placed more than 5,000 women in industrial work during the war.

Mr. Eicher died a few months ago and left his wife with four small children, a small farm, a smaller steamer and a river bank coal mine. Mrs. Eicher felt that she could not afford to hire a skilled pilot to operate her steamer which had a tonnage of 100 tons from the mine to Bowling Green on the Green river. But this did not worry her long, because armed with the knowledge gained in working side by side with her husband on the river, she applied for a pilot's license and won it.

Thus she became the first woman licensed pilot in Kentucky. Her little farm is not large enough to support a family of five, but together with the mine properties under her judicious management are on a paying basis, despite the high prices of materials and labor.

Mme. Jules Siegfried, president of the national council of women of France, had addressed a letter to Premier Clemenceau as president of the peace conference asking him to use his influence to have measures taken for the relief of Russian women.

The Union of Russian Women in Switzerland has sent Premier Clemenceau a telegram in the same sense.

Farm work by women in the United States not only will continue as readily as during the war, but may increase according to the officers of the Woman's Land Army of America.

Gov. Burnquist has signed the bill giving women the right to vote for presidential electors in Minnesota.

Eighty-three women acted as automobile drivers in Springfield, Mass., during the period of the war.

The Consumers' League of Delaware is conducting an industrial survey of women workers in that state.

Miss Theresa Haley is in Porto Rico to represent the United States employment bureau. While there she will look after the working conditions on the island, especially among the women workers, who are said to be employed under deplorable conditions.

There is an interesting woman living in Bowling Green, Kentucky. She has taken up an occupation which heretofore has been a clear field for men. She contradicts the statements made by many reactionaries that the home is the place for women and that the family must suffer if the woman works in the business world. Mrs. William Eicher is the woman and she has four small children. Mrs. Eicher claims that her family would suffer more if she did not work at her new profession.

LEGISLATURE AIDS DRIVE FOR HEALTH

[SPECIAL TO THE GAZETTE.]

Madison, April 3.—This legislature thus far in its deliberations has shown a friendly attitude toward most of the proposals for the advancement of public health, and the present session is no exception. Existing statutes under which state and local health bodies administer health measures. Many conditions brought to public light by the war have been followed by suggested legislation.

A bill requiring all counties to employ public health nurses, or health instructors, making mandatory the present option, was introduced and is being discussed at a joint committee session last week. Registered nurses insisted that the bill be limited to graduate nurses, and that the training be based upon their three years' training. Representatives of the board of health, Anti-Tuberculosis association, state conference on social work, and state council of defense claimed a broad distinction exists between bedside nursing, for which trained nurses are peculiarly qualified, and public health work of the rural type which the bill aims especially to cover. They asked that the field be left open to both classes of health workers in order to meet the needs of the rural districts, which were declared to be of urgent importance.

Bill is Amended.

This bill was amended by the committee to characterize such nurses as "public health graduate nurses," and to give the state board of health authority to appoint health instructors, meaning young women with special training in public health work. Both classes are applicable on equal terms. The amendment on registration of the registered nurses represented on the committee of examiners for these appointees, in place of the industrial commission. Other members are to be named by the state board of health and the state department of public instruction. This substitute amendment was reported unanimously for passage.

The assembly has passed the Carter bill empowering the state board of health to formulate rules and regulations governing the construction and equipment of public comfort stations in every village and town. An amendment striking out the mandatory provision was voted down. This is a health measure which was strongly backed by the state council of defense, the federated women's clubs, state highway department, traveling men's organizations, and the state board of health. It will have a hearing on the senate side soon.

Purification of public water supplied and proper disposal of municipal sewage in the future are requirements contained in the Carter bill vesting in the state board of health control of all waters in and bordering on the state as to their safety for public consumption. The bill has been ordered engrossed in the assembly and will come on for passage soon. Plans for new water and sewerage systems under this bill will have to be submitted to the state board of health for approval before construction may begin. Hearing on this measure was held before a joint session of assembly and senate committees.

Proposed Change.

A proposed change in the marriage laws having bearing on the public health and welfare is involved in Assemblyman Bowman's bill repealing the five-day clause, applying the existing requirement to women as well as men, and recommending other changes.

The house bill making influenza a reportable disease (cases as well as deaths), is well on toward enactment. So also is the bill vesting in local boards of health power to order closed schools, churches, amusements, and public gatherings as a measure for prevention of epidemics.

The public bill exempting local health officers from liability in the performance of their official duty received a report from the senate committee for indefinite postponement, but was later re-referred to the judiciary committee where it now stands. The bill making chancery a reportable disease, declaring it a misdemeanor to public health prohibiting alleged cures for venereal diseases, and forbidding advertisements of such nostrums, passed the senate and is now before the assembly committee on public welfare.

The legislature completed enactment in February of the appropriation bill carrying biennial funds for the state board of health, and the governor signed it. For administration purposes \$50,000 is provided annually, an increase of \$15,000. This will make possible the establishment after July 1 of a bureau of child welfare, in which will be co-ordinated all existing activities for the better protection of the health and lives of children. For the prevention and control of venereal diseases the board is allocated \$25,000 annually, and the federal government gives Wisconsin a similar amount. Work in this field is already well under way under the direction of Acting Assistant Surgeon I. R. Thompson, on duty with the state board of health.

A measure to render easier the connection of buildings with the public sewers is being introduced by Mr. Fletcher of Bangor. The present statute provides that in communities where water and sewerage are accessible property owners must comply with municipal orders to connect their buildings with the public systems. It requires also that upon failure to do so, the city or village may cause such buildings to be connected and assess the cost as a special tax against the property. The bill pending extends these provisions to permit, at the option of the owner, the payment of the special tax to be pro-rated over a term of five years, payable in as many equal installments, with interest at 6 per cent on unpaid portions.

Head of German Armistice Commission Reaches Spa

[BY ASSOCIATED PRESS.]

Spa, April 3.—Mathias Erzberger, head of the German armistice commission, arrived here today accompanied by a number of technical and other advisors including the chief burgomaster of Danzig.

Before leaving Berlin, Erzberger had a final consultation with French representatives, and the agreement was reached as to the attitude to be adopted in the negotiations with allied representatives here. It seems that the sentiment of the Germans is favorable to a settlement of the Danzig controversy.

Marshal Foch's train is due to arrive here at 8:30 o'clock Thursday morning and the conference at which the Danzig question will be settled is fixed for ten o'clock at Villa Neuhaus, the residence of General Nudant.

Presbyterian basketballers continued their steady march toward the championship of the church league and the Gazette cup last night by trimming the English Lutheran, 15 to 6, in a well-played game at the Y. M. C. A. In the first game of the evening, the Congregational five rambled away from the First Lutherans and won by a count of 23 to 11.

The Presbyterians had to put up their best game to cop from the Lutheran quintet. Displaying their usual brand of teamwork, they ran up just enough baskets to give their fair lead in the second half. The first half ended with the Presbyterians on the longer end of a 6 to 4 score.

The Congregationalists, who were in guard for the winners showed the best form, the former slipping in three field goals. Babcock and Raubacher starred for the losers.

The Cong quintet had an easy time of it with the First Lutherans holding the lead at the intermission, 10 to 5. The Hager brothers with baskets between them stimulated for the winners.

Tomorrow night at 8:45, St. Patrick's five will take on the First Lutherans. The Catholics are hoped to win, giving them a better hold on first place. The results of last night's games:

"WOPS" WIN FROM BASSFORD'S "BUMS"

Capt. Pierpont Wod's lowly "Wops" broke away with two victories over Bassford's "Bums" in the business men's volleyball league yesterday afternoon. The hobo five grabbed the second game of the three. The scores were 21-13, 17-21, and 21-11.

Woods' fighters batted the ball all over for a good sized score in each game, but fell down near the finish allowing Bassford's men to threaten a win.

Great Britain's Territorial Forces to Be Reorganized

London, April 3.—(British Wireless Service.)—It is proposed to reconstitute and reorganize Great Britain's territorial forces into 14 divisions and 14 mounted brigades from army troops, garrisons and old line of communication units, said Winston Spencer Churchill, secretary of state for war, speaking at a conference held here today. Territorial troops retained in the armies of occupation overseas, he said, would be absorbed on their return home into the divisions to which they properly belonged, thus making the divisions complete. This plan, he said, was brought forward so that it could be discussed and if necessary, modified.

Steel Price Problem Will Not Be Reopened

[BY ASSOCIATED PRESS.]

Washington, April 3.—Chairman Peck of the industrial board, today, emphasized that the question of steel prices will not be reopened as the result of the failure of Director General Hines to accept for the railroad administration the approved schedule. He said the board's agreement with the industry would remain unchanged and that in further conferences an effort would be made to bring about the cooperation of the railroad administration.

SPEAKING OF MARCH LIONS ITS A HABIT, WITH SOME FOLKS EVERY MONTH IN THE YEAR

The Daily Novelette

SO IT IS.

A few days after Carrie Newscaids had bidden tearful farewell to her friends in the laundry and gone to take possession of the millions that her Uncle Yuke had left her, she noticed that ladies in good society always wore gloves when shopping or calling.

"I must get myself some gloves. I must," she mused, and, after perusing the fashion papers, she rang for her car and was whirled to Bing's Big Bargain House.

"Show me the very latest in gloves," she demanded haughtily.

"Black seals, ma'am?" inquired the salesman.

"Sure, black kids."

The salesman returned with the gloves, and Carrie Newscaids sniffed critically. "You don't mean for to say these is the very latest, do you?"

"Certainly I do, ma'am," replied the salesman.

"But accordin' to the fashion paper black kid gloves has got tan stitching, and vice versa. Here's the tan stitching all right, but I don't see no vice versa."

The salesman reflected and scratched his head. Then a great light broke on him.

Tales of the Friendly Forest

Now the little baby grasshopper who was being sick to sleep, as I told you in the last story, as soon as she saw Uncle Lucky, sat right up in her little straw cradle and began to laugh. So the dear old gentleman took the baby grasshopper in his lap and sang this little song to her. And now if you'll listen I'll sing it to you on my typewriter, only

it won't sound half as nice, for the dear old gentleman's rabbit had a lovely soft tenor voice:

"Rock-a-bye baby, don't wiggle or cry
Your old Uncle Lucky has on his pink tie,
And when you grow older he'll give you a doll
And a carriage to wheel with a pink
So hush, baby bunting and close both your eyes.
For the Twinkle Star's shining up there in the sky,
And would you believe it, in less than 500 short seconds that baby grasshopper was sound asleep and snoring!"

"You are a wonderful old rabbit," said Mrs. Grasshopper. "I never knew baby to go to sleep like that before. And to think that you've never had any children of your own, too!"

"Perhaps that's the reason," answered the old gentleman rabbit. "We can often do better with other people's things than we can with our own. And after that Mr. Grasshopper gave Uncle Lucky a nice cabbage cigar and Billy Bunny some wild strawberries."

"Goodbye," said the two little rabbits and pretty soon they were far away and it was growing dark. So they lighted the lamps and started for home, but when it's dark and you're on a strange road, it seems a long ways off, and by the time they lost their way and didn't know what to do. And just as they were beginning to feel dreadfully blue and anxious, they heard a treasured say:

"Come over to this house of mine,
And spend the night with me.
You'll find a little door below
And stairs inside the tree."

"That's very kind of you," said Uncle Lucky, and then he and Billy Bunny hopped out of the Lucky rabbit and opened the little door at the foot of the tree, and sure enough, there was a flight of stairs leading up to the branches. Well, up they hopped until they came to a nice room in the treasured out in a little sitting chair made out of a walnut.

"You just make yourselves comfortable," she said, "while I get you some apple pie and lemon soda. And pretty soon she came back from the pantry and then they all had a feast. "I'm so glad you came, and you must spend the night," said the lady treasured, for ever since my boy went to the war we've been dreadfully lonely. For Mr. Treasured is at Washington in a big tree in the backyard of the white house where he looks after lots of things for Uncle Sam. And in the next story I'll tell you what the little rabbits did after they woke up in the morning."

You collect interest by clipping coupons and taking them to your bank—same as on Liberty Bonds.

The Notes will face value Nov. 1, 1923. If value, Nov. 1, 1923. If you need your money before that, bring your Notes in any time after the sale of the \$3,600,000 issue closes and we will put them on sale for you.

They are on sale in \$50, \$100, \$500 and \$1,000 sizes. Your 7% interest starts the day you buy. Here is what a Note of each size will earn between May 1, 1919, and Nov. 1, 1923—a period of four years and six months: a \$50 Note will earn \$13.75; a \$500 Note will earn \$137.50; a \$5000 Note will earn \$1,375.00; a \$1,000 Note will earn \$137.50.

There is no speculation in this—just a safe 7% investment in the largest, strongest, most rapidly growing public service business in the state of Wisconsin.
